A Field of Oriental Poppies at Auglaize Gardens

AUGLAIZE GARDENS * * * VAN WERT, OHIO
FALL 1939 — SPRING 1940

ORIENTAL POPPIES

Familiar standard varieties and rare new introductions are included in the Auglaize selection of Oriental Poppies. Only strong two year old field grown plants are used to fill our orders. Shipped during the dormant season, August and September, they are easily and safely transplanted. Auglaize Gardens has the distinction of being the introducer of nearly all of Dr. Neeley's hybrids, and a great many of these rare varieties are listed in these columns. Varieties marked ★ are those which we consider most desirable. No Oriental Poppies can be shipped in the spring, and they are offered only for fall shipment.

- ★**Australia**—A large massive flower of oxblood red, carried on a heavy stem. An outstanding flower which is worthy of being classed with Lula A. Neeley and Wurtembergia.....\$ 1.50
- Bobs**—Salmon rose75
- Bacteatum**—Blood red flower shading to orange. The parent of many of our red poppies..... 1.00
- Brightness**—Light orange scarlet..... .75

★**Cavalier**, (a Neeley introduction)—Cerise, somewhat similar in color and form to Wurtembergia, but a larger flower and last longer. The flower is wonderfully formed, of remarkable substance, is carried on a long stiff stem. An outstanding poppy in the red class\$ 1.50

- ★**Cerise Beauty**—Cerise pink50
- Countess of Stair**—Salmon rose 1.00
- Duke of Teck**—Crimson75

★**Echo**, (a Neeley introduction)—This poppy is quite different from other pink poppies and is very attractive. The color is a light silvery pink with a light maroon blotch—one of our favorites of the entire group..... 3.00

- ★**Edna Perry**—A lovely bright pink flower, opening a little later than Mrs. Perry. A vigorous grower... .50

★**Enchantress**, (a Neeley introduction)—The color of this wonderful poppy is a soft lilac rose and by some observers might be termed lavender. Enchantress is a seedling of Masterpiece, It is as distinctive in color as its parent, but always opens perfectly, does not fade as quickly and is just a little deeper in color. It has none of the faults of Masterpiece and all of its good qualities. Enchantress is a distinctive improvement in poppies of this type and will prove extremely popular\$ 3.00

- Excelsior**—Orange scarlet50
- Fire King**—Glowing red75
- ★**Flanders**—Deep crimson, almost oxblood red.... .75
- ★**Flashy Glow**, (a Neeley introduction)—Yellow with an orange cast, clearer than most others of this type. Blooms late mid-season. 1.50
- Goldschmidt**—Orange scarlet 1.00
- Goliath**—Brilliant scarlet, short stocky stems75
- Grand Mogul**—Large scarlet flowers..... .75
- Grossfurst**—Deep crimson, coal black spots..... .75
- Hercules**—A flame-red four-petaled flower of immense size75
- ★**Jenny Mawson**—A fine large peach-pink that is very satisfactory75
- Joyce**—Cherry red50
- ★**Julia Buck**, (a Neeley introduction)—Deep coral pink 2.00

★**June Delight**, (a Neeley introduction)—Another of Dr. Neeley's outstanding poppies we introduced a few years ago, but which owing to scarcity of stock we have not offered recently. A large magnificent flower silvery pink in color and very outstanding. One of Dr. Neeley's finest hybrids.\$ 5.00

- Lachs Konigen**—Peach-red with a pink cast..... 1.00
- ★**Lady Moore**—Beautiful soft rose..... 1.25
- Little Prince**—Scarlet, dwarf 1.00
- ★**Lord Lambourne**—Light scarlet, lacinated petals 1.00
- ★**Lula A. Neeley**, (a Neeley introduction)—Beyond question the finest red poppy grown today and not surpassed by any other for clarity of color, freedom of bloom and good habit of the plant. A good cut flower. Medium size..... .75
- Manchu's Fan**—Glowing red..... 1.50
- ★**Mandarin**—A true Chinese red of good size and fine substance. Vigorous grower..... 1.00

★**Mary Jane Miller**, (a Neeley introduction)—The latest of Dr. Neeley's introductions and we feel one that may turn out to be his finest. The flower is very large, of an intense shade of geranium pink and is carried on tall stiff stems. An early prolific bloomer. Outstanding in every respect\$ 3.50

- Masterpiece**—A soft lavender fading badly in the sun. Does not open well—but with all its faults is very popular and we have not had enough stock to offer it for several years. Enchantress is similar and much superior..... 1.50
- May Queen**—Double orange scarlet..... 1.00
- Mrs. Heenk**—Rose..... 1.00
- Mrs. J. Hawkins**—Fine pink..... 1.00
- ★**Mrs. Perry**—Salmon pink50
- Olympia**—Early, double, flame scarlet..... .50
- ★**Ophir Gold**, (a Neeley introduction)—A light orange, we feel the best flower of its color class yet introduced 2.00
- Orange Beauty**—Orange red..... 1.00
- Orange King**—Orange red 1.00
- Orange Queen**—Orange red..... 1.00
- Orientele**—Orange scarlet50
- Perfection**—Deep pink 1.00
- ★**Perry's Blush**—Blush white 2.50
- Peter Pan**—Scarlet cerise50
- Pink Beauty**—Clear pink with black base..... .50
- ★**Princess Ena**—Salmon pink50
- ★**Princess Victoria Louise**—Delicate salmon pink... .50
- ★**Proserpine**—A fine cerise flower which when well grown very much resembles Wurtembergia, but lacks the substance and clear color of the latter and does not weather as well..... .50
- Purity**, (a Neeley introduction)—Soft pink, no spot 2.00
- Queen Alexandra**—Light pink75
- Royal Scarlet**—Brilliant scarlet..... .75
- Salmon King**—Salmon color 1.00
- Silverblick**—Salmon pink 1.00
- Sturtevant Pink Hybrid**—Deep pink..... 1.00
- ★**Trilby**—Late and very fine, very deep red, crinkled petals 1.50
- ★**Watteau**—Flesh coral 1.50
- ★**Welcome**—Deep scarlet 1.50
- ★**Wunderkind**—Brilliant carmine rose. Very outstanding. Stock limited 2.00
- ★**Wurtembergia**—With the exception of Cavalier, this is probably the largest of all poppies; flowers are often 11 inches across. The color is cerise scarlet with a black blotch. Has always been an outstanding poppy 1.00

HEMEROCALLIS (Day Lilies)

Recent years have seen great improvements in Hemerocallis, as well as a great increase in their popularity. Now Auglaize Gardens offers strong field grown plants in the finer varieties. At least a few of them can be used in any garden to add a charming new note of bloom anytime from late May until early September, according to blooming season. Hardy plants, the Hemerocallis grow well in either full sun or partial shade, in dry or wet soil, and demand a minimum of care. In the Auglaize list will be found most of the outstanding varieties in both older and more recent introductions, early and late blooming varieties and a beautiful range of colors. As with the peonies we have used a ★ to indicate the varieties which we consider the most desirable. The plants that we ship have from three to five stalks varying some with the different varieties, but all are large strong plants which will take a hold and grow readily.

ACCESSORIES

MANUAL OF THE AMERICAN PEONY SOCIETY

This is a book that should be in the library of every peony lover. Complete descriptions of all peonies listed by Auglaize Gardens (except the newest) are given together with much useful information on the history, cultivation, selection and desirability of peonies. Regular price \$3.15, but for a limited time our Gate House Store can supply this manual postpaid at the special price of\$2.25

ALUMINUM LABELS

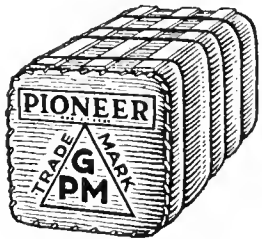

A good flower is worthy of a good label — one that is indestructible and cannot be lost. We use an all aluminum tag 1/2" wide with 1/4" embossed letters in our fields, punched at each end for nailing to a stake or tying. Price, in lots of one dozen, 2c each postpaid for names not more than 25 letters long. These labels can be furnished in single lines only.

PEAT MOSS AND SORBEX

Peat Moss is an indispensable material for the modern garden. Primarily its function is to put the soil in good condition and allow proper aeration and to retain moisture—factors essential for proper plant growth. When added to heavy soil it breaks it up, in light soil it gives body and moisture holding capacity.

We carry two types. GPM Peat Moss for general garden use, flower beds, vegetable gardens and so forth. Sorbex an especially fine ground peat of superior quality and recommended for lawns, although entirely satisfactory for general use.
